Alright, everybody, welcome to show. My name is Steven D Kelley, and this is the Steven D Kelley show that is Thursday, July 21 I'm sorry, July 24 2025 Well, you

S Steven D Kelley 00:18

know, it seems like all we do anymore is a review of the events which are pretty significant, I suppose, and I have to talk about them all because they're all related. But the key thing to remember here, before I launch into all this stuff, and I should, I should start out with this at the beginning is that

S Steven D Kelley 00:43

everything that we're seeing, all this chaos and upheaval, as bad as some of it is and as potentially bad as some of it could get, it's just an indicator of how well we're doing our work and how, how the pressure to expose the truth is having this effect. And ultimately, I think that the fact that, well, I mean, if you look at the world events that we're going to be talking about, you'll see that there's just no hiding it, who it is, what it is, why it is. There's just no hiding what it is anymore. So where do we start? I could start with Trump and his pedophilia issues, the Epstein saga, and I definitely do want to cover that. But before I do, I think I should just cover some of the more international things that are going on as quickly as possible. And I guess I'll start with Ukraine. Now, for those of you that are not following sources that are outside of the West, of course, you probably don't really have any idea of what's really going on with the well, the failure of the Ukrainian forces,

S Steven D Kelley 02:12

the entire front line

S

Steven D Kelley 02:15

of contact in Ukraine, between the the forces of the Russians and the forces of the Ukrainians and their various mercenaries and NATO proxies, etc. It's a real it's, it's, it's a

S

Steven D Kelley 02:29

pretty darn long line of contact battle line. I

S

Steven D Kelley 02:33

think it's something like 1500 miles long. But what's been happening steadily increasingly over the last months and probably increasing every day, is the movement, the constant flow forward of the Russian troops and the movement of that line of contact further and further and deeper and deeper into Ukrainian territory. It's been likened unto a lava flow, sure and steady but completely unstoppable. Some people have basically, they've tried to portray this as some sort of a fault or a defect in the Russian strategy. But this is typical. This slow, methodical approach is how they do battle. Unlike the United States, which likes to use shock and awe and go in there and wipe everything out as much as possible, and say, job well done, kind of like Trump, when he bombed those mountains in Iran and said he obliterated something that we have no proof that he obliterated, but, but, but he said, So, I obliterated something was underground. You know, it's kind of like, let's say somebody dropped a bomb on the side of the gate. You're gonna say, Oh, well, whatever was down there, it's obliterated. Forget about it. You're willing to accept this nonsense about Iran anyway. The the end is really close for this regime, the Zelensky regime, regime, whatever you want to call it. And there's a lot of things going on which would suggest that they came out and just said that they needed 150 billion or something just to get through 2025 and at the same time they did that, they also voted in their little Congress, the (Verkhovna) Rada, or whatever they call it, to basically take over all of the CIA NGO oversight committees that were put in place to make sure that money being spent on arms was actually being spent on arms and not being spent on the villas. And and castles and islands and such for the Zelinsky regime. These, this was called the Nabu and some other organization. Anyway, they Zelinsky took that over. And immediately after he did that, the NGOs and the CIA types and the three letter agencies that put Zelinsky in place immediately flooded the streets of Kiev with protesters. You know, it's amazing when you consider that they typically, if they see a man out in public, they'll haul them off to the front line. And there's quite a few men there. But I guess they must have all been under 25 or something, because those are the ones that they're not they're not dragging off to the front. But apparently, those people, the students, whatever the the young, impressionable ones, they're the ones that the NGOs depend on for their so called colorful color revolutions. Not colorful. They're Maida. But this was no Maidan. This is not an organic uprising. Not to suggest that my dad was organic. Of course not. That was the United States spending \$5 billion on Nazis to go in there and run a muck. Well, what are they going to do now try to get rid of Zelensky. Anyway, he repealed all that stuff. But one thing that's kind of striking is the Westerners that that still come to Ukraine to try to prop it up and show their solidarity. And that's, of course, done with the with the complete permission of Russia, because obviously the only way to get into that country is with a train. And certainly Russia could take that out anytime they wanted. But there's a guy that

just showed up in Ukraine right now. Who is it? It's the foreign minister of Israel, the guy Gideon Sa'ar or something like this. Anyway, he's over there with the Ukrainians appearing in front of TV saying, basically denouncing Russian airstrikes on civilians and suggesting that Ukraine and Israel have a special bond, special bond. Now, you know, I obviously we don't want to put the whole show devoted this one issue, but, but Gaza, Gaza still being obliterated, and Israel just annexed the West Bank. They just decided that the West Bank, the other area that has a Arab population, that is not quite as awful as Gaza, but it's pretty damn awful. Well, they just decide now that that's Israel, okay? No, no two party, no two state. That little West Bank section was supposed to be somewhat autonomous. Of course, they flooded it with settlers. That's, that's now part of Israel. Yeah, it's, it's horrible. People are starving. They're dying every day, every day. Now. People are just dropping dead from starvation. And of course, if somebody tries to send in food, they get blown up. I think what was it? 100 aid workers just got killed just the other day. Oh, yeah. And if you try to go fishing, they shoot you. If you go in the ocean, you get anywhere near the water with a fishing pole, whatever they're going to shoot you. It's pretty fucking ridiculous, anyway. But yes, special relationship between Ukraine and Israel. Special bond. What? What the hell is that? Khazar mafia, Khazar Jews, it's the same damn thing, Rothschild, whatever that is, the fucking enemy, and it's going down, and these guys are freaking out. So what's going on on the front

S

Steven D Kelley 08:39

line? I after

S

Steven D Kelley 08:44

the last little bit of Donetsk, the Donetsk Republic, or the Donbas, if you will, has been liberated. Now, of course, this is the most important part of Ukraine. It has all the industry that's really the most important part. Everything else is kind of, you know, the backwards Nazi part, cities are starting to fall, villages starting to fall, hubs, transportation hubs, are starting to fall. And right now there's a big one starting to fall. And I can never keep track of these names, because, you know, the Russians will call it one thing. Ukrainians will call it another thing, Kramatorsk, I think is one. Butpull Poltava, I believe that's still something the Ukrainians call this one city, but Poltava, it's just a little bit east of Kiev, and it's the last big city between the Russians and Kiev. So last big city between the Russians and Kiev, and the Russians are taking it, which means that once they take potova, it's just a drive down the freeway to Kiev. No cities, no fortifications, no villages. Straight line. This is coming. The writing's on the wall. It's going. Move fast. Russia's making something like 2000 Geran drones a day. They're having devastating effect. Was, I'm sorry, did I say 200 I meant 2000 a day. And they're building up a stockpile of these things, and they've got the hypersonic missiles and everything else. They can end this anytime they want, but they're doing it slow and steady. They're taking care of the people along the way, especially the children. They're very much concerned about the children. Personally, I worry about the animals too. But anyway, the point is, it's coming soon. Zelensky is trying to get as much money as he can packed into those suitcases so he can get into one of those situations where he's got a plane on the tarmac and he can load it up with cash and get the hell out of town as quick as possible, before the Taliban takes over, if you will. You will.

S

Steven D Kelley 11:07

So that's coming, and yet the so called West still perpetuates this bullshit. Germany perpetuates this bullshit. Britain perpetuates this bullshit. I is von der Leyen. What's your name? Not uncle Merkel's. When I say, You know what I'm talking about, the gynecologist bitch that runs the EU take your pick, Ursula. Ursula von der Leyen, they still think they're going to raise money and they're going to fight back, and all they really care about is that money. It's all about them keeping that damn money flowing. It's

S

Steven D Kelley 11:46

all going to shit before I move on to other areas of the world.

S

Steven D Kelley 11:54

I just want to say one more thing about Russia and Ukraine.

S

Steven D Kelley 11:59

Now I saw, I saw two things. I saw one thing that actually kind of moved me, and I saw another thing that kind of made me sick.

S

Steven D Kelley 12:06

And the the thing that I was impressed with first was the Russians were launching a new submarine, a Borei class. It was like the fifth one of these advanced nuclear submarines, you know, which is a thing that United States and the rest of the West can't keep up with Russia. Now, if Russia wants to launch nuclear submarines, guess what? Guess what? We can't keep up anyway. So he was, they were launching this new submarine. They were they were handing it over to the crew, and they were staying their attention, there's beefy white dress whites and and Putin was there, and he presented the captain of this submarine with an icon, a a plaque that was, it was basically a golden thing that was inside this box. Excuse me, it was velvet lined. Box was beautiful then. And then the captain turned it around, and he held it up. And then Putin stepped back, but he stepped forward again, and he and he opened the box. He said, Oh, like here, let me show you. And he went and opened it. And it were little. They were the golden thing. It was little doors. And it was one of these little icon things that they have pictures of Jesus and saints or whatever it is, but it was all, of course, the Eastern, Orthodox type of iconography. But it was damn beautiful and that. And then he stepped back and looked at admired the beauty of this icon that he had just bestowed upon, this captain of this nuclear powered machine. And then he He gestured to the captain with his hand to turn around and show it to the crew. Let the crew see this beautiful thing that you just got that is going to go on board your vessel. It's going to adorn your vessel in a place where the whole crew can see it become inspired and reminded

S

Steven D Kelley 14:05

why they do what they do and who they're fighting for, Jesus. And in contrast, we see this

corrupt Khazar Khazar, Chabad, Nazi, whatever you want to call it, regime. And there's report now that the leaders, the hierarchy, the people in power over there in the Zelensky

S

Steven D Kelley 14:41

regime, they give a lot of money to psychics, crazy looking women with pentagram tattoos and over collagen in their lips and crap, and they pay for protection from these satanic witches, you know, kind of like Maria Abramovich, you know. The one they Ukraine appointed as a cultural ambassador to the world. Are you not seeing the contrast here? The side that we support, that we give money to, that we think is righteous, is the side that uses Satan and spells and demonography, Satanism, Nazi bullshit, Chabad bullshit, Solomon bullshit, Kabbalah bullshit, Rothschild bullshit. And what are they fighting against? The Eastern Orthodox Church, the Eastern Roman Empire. What's left of Constantine and Constantinople? What's left? And what do we have fighting it supposedly the Holy Roman Empire, the western part, the one that's consumed by the Rothschilds and such and and their king, Charlemagne, and and their agreements, their their rules and their laws. I don't know. Who do you Who do you think is going to win this battle? Who do you want to be on the side of when this is over in the history books? I want to be on the side of the guys that worship Jesus, that go to battle with Jesus, not the assholes that use hexes and spells of satanic bullshit and blood, hell. The soldiers in Ukraine all know what happens if they get wounded, they're going to get their organs taken. Who does that? You know? You should have seen the captain of this ship. I mean, first of all, I think guy, you didn't know enough to open this thing up, and he was overwhelmed. And then, and then Putin comes up and shakes his hand. And this guy is like he wanted to bow, of course, Putin Short, and this guy was kind of tall, but you could tell this guy was so proud, not just because it was put not just because he was serving his country, but because he knew he was serving Jesus. And yeah, make no mistake about it, those people know that they're serving God. They say they are. And right now, it looks like that's the only chance for the world. But we have our own plans, of course, with Occupy the Getty, but I got other things to talk about. I also have to talk about Syria. What the hell's going on in Syria makes me sick. It makes me fucking sick, seriously, to watch that country get divided. I think about what I would say to Assad, or what I would say to his wife, and I would ask him, was it worth it? Why were you so weak? Why couldn't you stop this? Why did you let this happen? So now we've got ISIS running around dressing up as some sort of tribal Arab types, and they're calling themselves Bedouin better when these are the guys that you know live out in the middle of the desert, Bedouin sheep herders, camel camel jockeys. And now they're saying that the Bedouin are at war with the Druze, and there's genocidal warfare and killing going on between these two parties, but, but it's all bullshit, because it's not better when it's fucking ISIS. It's Al Jolani, it's the guys that the West supported what are they doing? Are they killing Druze? Yeah, they're killing Druze. Why are they talking about the Druze? Well, they got to talk about a little bit, because they're not talking about the Christians. They're not talking about the Alawites. There's been wholesale genocide going on since we allowed that country to fall. For what purpose? So that assholes Israel could bomb Iran easier. We had to clean that up so asshole Trump pedophile could drop some bunker busters spend some, you know, billion dollars on nothing, making holes in the side of a mountain and then claiming to be the greatest victory in the history of mankind. Anyway. So that goes on every day. I think about the Christians. I mean, there's videos of the torture and the way they kill these people. They walk up on a civilian, and they'll shoot them in the leg, and then they'll shoot them in their leg, and then they'll, they'll make them jump off a balcony or something, or kill the whole family, whatever. It's fucked up. But you know what? It's no more fucked up than what's going on under the Getty. Same fucking thing, same fucking people. I'm not talking about ISIS. You know, they say that Turkey and Israel, right now are

fighting over Syria. What's left of Syria? They want to divide it up now. We all know from the Bible, and remember, we're supposed to believe in the Bible because some fucking asshole somewhere said that this is God talking. And they say in the Old Testament that Damascus is going to be destroyed. Must even destroy who's going to do that? Turkey or Israel? Well, we know Israel wants it destroyed now. Now here's the thing about Turkey. Everybody thinks that Israel and Turkey are these adversaries. See, it's like, well, Turkey is going to be next. Israel is going to go after Turkey, the turkey's country. The country is controlled by Donmeh Jews, crypto Jews, the same territory that produced the Khazars that produced Jacob Frank Sabbatai Lev the Armenian Genocide,

S

Steven D Kelley 21:14

and on and on and on.

S

Steven D Kelley 21:18

So, yeah, Turkic peoples? What are those leftover from Solomon? Probably mixed in with a little something else. Probably either way,

S

Steven D Kelley 21:36

they're not enemies,

S

Steven D Kelley 21:38

just like Ukraine and Russia, they're not enemies technically. I mean, sure, Christianity is certainly an enemy of Satanism, but there's plenty of Satanism in Russia, and that's why they're trying to destroy Russia, because they want it, because that's where they come from. That's where most of their people live. Chabad is the strongest denomination of all the so called Jews in Russia, and Putin made it that way, and now they all have to keep their mouth shut while Ukraine is being dismantled, because, you know, Nazis, you can't say anything. You can't mention it. Ultimately, all this shit with these Chabad mafia, Nazi Khazar tribal wannabes, children of Solomon wannabes. They're the same people that run Mossad run Israel. And you know, when we talk about Trump and his issues with the pedophilia and the Epstein that just doesn't want to go away. I mean, first of all, when are people going to wake up and say out loud, flat out, that the Talmud, the holy book of these people, supposedly, according to their rabbis, it says that pedophilia is okay. Seriously. Their rule book says that pedophilia, sex with babies, sex with children, sex with minors.

S

Steven D Kelley 23:23

It's good. It's kosher. You'd think they'd say that out loud, but you know, they're not going to say out loud. What's going on with Epstein? I mean, you can't hide it. Trump can't hide it. But here's the thing, pedophilia, aside money laundering, aside Mossad influence peddling, aside, there's other things that are substantial. For instance, do when I was working with the intertel

Mafia, the Oliver North gang. The whole purpose of that was eventually not just to prop up the Contras in Nicaragua, but to establish a pipeline to send weapons to Iran, to basically, again launder cash, but also to set up the government that would become the government of Iran that is in place today. It's always been controlled. Just like the Shah was controlled by the CIA. This government that's in place today is controlled by the Intertel Mafia. It always was. Now, of course, if you ask Grok for evidence, Grok will say, oh, there's no evidence. You know, bullshit. Bullshit. So sick of. Say, Hi, crap. Our good friend Bill Barr was involved. Did get busted for being involved in a plane load of weapons in a surreptitious airplane that I think was supposed to be a Colombian soccer team, or some nonsense like that that was going to Israel or Iran or one of these destinations. But anyway, it crashed, and when it crashed, people go, Whoa, hey, whoa, why are all these weapons on this airplane? Wow, what was really going on here? And of course, that all got swept under the rug. But the point was that that was the clue that these guys were involved in that stuff. Now, I've always said that Epstein was part of this operation, because Robert Vesco, the big granddaddy of everybody operated out of these various islands, Caymans and Bahamas and what have you, until he was eventually driven to Cuba, where he died. But all that money laundering and all that fast money, it all happened right there, and Epstein's Island was right in the middle of it, and was a big part of it. And I've always said that Epstein was a big part of Intertel, and connected to Robert Vesco and Mossad and CIA and NSA are all little fingers of Intertel. This is what they don't want you to know. Yes, they don't want you to know that Mossad was behind all this shit, but they really don't want you to know was that it's all mafia and all these so called supposedly sovereign intelligence, aging agencies of these various sovereign countries actually have nothing to do with the country they are supposedly created to serve, but are actually, as I said, elements, appendages, parts of the worldwide mafia, which does not have a flag. Sure, there's a Hebrew nature to it, but it's not Israel. Israel is just a little piece of real estate that they use, kind of like Epstein uses his little island, or whoever uses their little island to have an address for the money to go to for the crimes to be committed. Anyway. Point is, turns out, one thing that I learned today was it all the people that want to say that Epstein had nothing to do with Mossad such as Trump, you're full of shit, because there are actual ex Mossad agents Who left, who defected, who quit, and they said that Epstein was connected to Mossad. But not only did they say Epstein was connected to Mossad, one of these agents, and I suspect that this was somehow an attempt to make pedophilia less of an issue, to suggest that? Well, you know, Mossad used these guys for these purposes, but not necessarily, not necessarily pedophilia, but but other espionage type intelligence operations such as assembling a pipeline to ship arms to Iran for whatever purpose. So right there,

S

Steven D Kelley 29:09

right there, we know

S

Steven D Kelley 29:10

that Mossad operatives have identified Epstein and his Caribbean connections as being a major player in that operation. We already know that because of Bill Barr, and we already know that Bill Barr is part of it because real life humans like Chip Tatum, former CIA hitman, well, former, I suppose, whatever identified Bill Barr's participants in meetings with Vesco, with Oliver North and with George Bush Senior, where they discussed jailing Noriega in. Promoting Clinton and

killing Barry Seal. So right there it shows how all these so called world events were being planned by mafia who had quasi official sovereign, so called Sovereign agencies such as the CIA, the NSA, MI6, Mossad, take your pick. SBU, who knows? Actually working for them?

S

Steven D Kelley 30:37

Okay, so you got to stop thinking in the terms of borders,

S

Steven D Kelley 30:46

and you got to stop thinking that these people that are elected are somehow painted into a corner as far as who they actually work for.

S

Steven D Kelley 30:57

Now on to Trump

S

Steven D Kelley 31:03

the level of pathetic right now

S

Steven D Kelley 31:07

is mind boggling. But at the same time, I should point out

S

Steven D Kelley 31:12

he is doing some things designed to generate massive amounts of money for the United States and power that he will dish out to people as a reward. So in other words, in order to help make people shut up and make them think that he's a winner and that the money that they're going to get from him is more important than the Epstein affair, he did secure a big deal with what Japan, I think it was a five year deal, something like \$500 billion \$550 billion and they gave Trump sole discretion for the disbursement of these funds, which means Congress is completely eliminated from the process of deciding where the money goes, which means that Trump has a \$550 billion cookie jar that only he is allowed to reach into and Pass out cookies. That's a hell of a lot of cookies to use to get his way and to get people to forget all about him being a pedophile or him being working for Mossad or Israel or whatever. But it's not going to go away. It's not gonna go away. You cannot make it go away.

S

Steven D Kelley 32:49

Now myself, like I said, I am.

S

Steven D Kelley 32:54

I'm quite happy with the the way things are working out, at least as far as the exposure that we're getting with our operation, pretty amazing.

S

Steven D Kelley 33:10

I mean, every day now

S

Steven D Kelley 33:12

I'm seeing people that I've never met, people that I have no clue who they are or how long they've been following, or whatnot. I think, I think for the most part, these people are all just finding out. More and more people are starting to become brave, and they're starting to to speak out and say, Getty. They're saying, When did that? Children out of the Getty going to be free? They're not. You know, here's the thing. When, when the Getty Center says there's no truth to the children under the Getty they say it's just a fiction and a lie, and when the LAPD says there's no evidence, and everyone says there's no evidence, Steven Kelley's crazy, whatever they want to say now that sounds about as hollow as Trump saying. Why are you still talking about the Epstein list, that creepy guy? What do you care? There's so many more important things to talk about. You know, last week we were talking about the destruction of the DOJ, mostly Kash Patel and Dan Bongino, and what was the other woman's name that they're getting ready pad Pat Pam Bondi. They're getting ready to throw all those bitches under the bus. But who has emerged? Who has emerged? Well, we've got this. Let's see what's her name with a white forelock woman over there, I want to say Christy nome, but I know it's Tulsi Gabbard. That's it. Tulsi Gabbard, bitch. That's Tulsi Gabbard is the latest, greatest, strong female voice that's coming out. On defense of Trump. It's saying it's Obama. It's Obama. Obama committed treason. It's Obama. Treason, treason, treason. Nothing will ever happen to Obama. And why Obama? Why not? Why not Hillary? Why stop Why not all of them? Why not throw them all under the bus. You know what? They can't do it. They just can't do it. You know? I'll tell you something, this whole treason business, I've been, I've been talking about treason for a while, and not treason, as in treason against the country, but I've been following, what, what? Some of these treasonous laws, but mostly treason laws that would basically cause you to be executed. You know, capital offenses. Let's you see. Let me, let me see if I can give you a list of some of these capital offenses. Let's see. 18 USC, 351, murder of a member of Congress, an important executive official or a Supreme Court justice. Antonio Scalia, let's see espionage, first degree murder, murder of a federal judge or law enforcement official, murder of a foreign official that doesn't that doesn't discriminate between enemies of the state, okay, murder of any foreign official is a capital offense, treasonable treason offense punishable by death. Murder with the intent of preventing testimony by a witness, a victim or informant. Let me see. How many times has Trump done that? How many times has Hillary done that? How many times has Obama done that? Retaliatory murder of a witness, victim or informant? My God, people. You see the point I'm making here,

S

Steven D Kelley 37:03

any one of these things is punishable by death. They're all guilty. They're all guilty. Just like

any one of these things is punishable by death. They're all guilty. They're all guilty, just like they're all pedophiles.

S

Steven D Kelley 37:17

I swear I don't think Jimmy Carter was a pedophile. Bush Senior, for sure. Bush Junior, who knows what he did to get where he had to go following daddy's footsteps, Obama, nobody even questions whether or not he's a pedophile. We had, we got to stop being tolerant of this shit. Now I've been, you know, I want to talk more about other things, but I got to talk about the Gavin Newsom thing. Real here. He's Trump's imploding, and you're going to get Gavin Newsom, and that is the plan. And if you don't start calling him a pedophile right now and using this Epstein shit and getting shit against him, don't put all your pressure on Trump. Give it to Gavin too, and don't wait for proof to come out. Throw the damn mud. Cover him with the shit he's Gordon. Getty's godson. What more do you need? What more do you need? All is fair, and this is a war, and I just want to say on the local front here in California that the assholes like Vern Pearson and the dirty little bitch Joe Harn, those guys are getting fucked the county up there. You know, we're talking Gavin's, Gavin's family playground, all those Nazis and all that mafia and all that Mason shit El Dorado County and Placer in Sacramento County, the shits coming, coming down. Amazingly enough, the locals up there have found their balls, and the evidence is coming out of the corruption, and though it may be small compared to the corruption of some of the people that we're fighting on a daily basis. It's still significant enough to help bring down the entire house of cards. And what I see the fear and the despair and the foreknowledge of what's coming the the it's it's not just in the Trump crowd. It's all the way down. This is happening everybody on both sides. The effort to throw each other under the bus is going to be insane pretty soon. And that's there's nothing wrong with that, because that's what they do, and that's the price of being in that club, is eventually they may throw you under the bus to save themselves. There's always somebody above you that's going to use you to protect them when the time comes. Trump knows that too. They all know that.

S

Steven D Kelley 39:58

Now, I. I'm not going to

S

Steven D Kelley 40:01

go too much further, but I do want to point out one thing that's sort of interesting, and that is that Candace Owens, and yes, I think she's cute, but Candace Owens is being sued by Emmanuel Macron and mostly his wife, Brigitte, because Candace Owens, basically, it says that Brigitte is a man. I mean, never mind that she's a, technically, a pedophile. I mean, my God, she was sleeping with Macron when he was, like, 14. Okay, come on, we everyone forgets that. But yeah, the reality is that Brigitte was something else at one time. I think he was a man. He came from Algiers anyway. I've seen the pictures, but, but again, here's the thing. She's sued. She sued Candace Owens. She's Macron went to Trump and said, Make Candace Owen, stop calling my wife a man. And then they got and then they sued. But you know what? She says, screw that, because there's this thing in court called discovery. You don't you, you claim that you're, you're a woman. You claim you're a woman, well, guess what? You're going to have to prove it if you want to sue someone that says you're a man. Now, what does that mean? That doesn't mean that the proof has to fall on Candace to prove that Brigitte has a cock and not a

god made vagina. No, if Brigitte wants to show that she was unfairly attacked and maligned, and she's going to have to pull her pants down, and she's going to have to do something to show that she was born a woman, if that includes baby pictures with mom and dad, so be it. But either way, the proof is on her okay. And funny enough. South Park just came out with an issue. They're attacking Trump because CBS made is making a \$1.5 billion merger with Skydance, and basically Trump is taking control. And he's, he's had that. He's, he's putting the hatchet to a bunch of these so called pundits like Steve Colbert. Everybody's pissed in the late night TV circuit about what Trump's doing. It's bullshit. But South Park just signed a deal, five year deal for another \$1.5 billion the largest contract in history went to South Park, and the first thing they did with their opening 27 season issue was attack Trump and show him sleeping with Satan and basically tell the world Trump has a small penis. That was the theme of the South Park episode. Now Trump, much like Macron and Brigitte, is very pissed off about this, and the White House is fired back and is threatening to sue South Park and their park productions company that makes the South Park, and who knows, maybe they want to go after the parent company, you know, Paramount, but, but here's the thing, or CBS, whatever it is, here's the thing. Once again, Donald, there's this thing called discovery. You want to prove to the world that you are being harmed. Your reputation is being harmed because you say you don't have this thing that they're saying, that you have Guess what. You have to prove that they're wrong. And the same applies to the Getty. It's not my responsibility to prove there's 100,000 children under the Getty it's the Gettys. And I think that if I say there's 100,000 children being tortured and eaten, not just growing up down there, but being eaten and replaced. So there's a constant population of victims, constantly changing, new victims being consumed. I think that is a far greater crime than Brigitte being called a man or Trump being said to have a small penis. I think that's a far greater, more serious fucking thing that should be taken seriously, not to set a crap, but obviously, you know what? Trump probably does have a small one, just like he's got those little, teeny, tiny hands. He really does have teeny, tiny hands, which would make sense, if he's got to play with himself, he'd probably need small fingers. But a man that rapes children, you. Gets off on raping little girls, taking their virginity and then beating them afterwards and talking crap and then throwing money at their parents. Why wouldn't this man have a small piece of manhood? Of course, he does. He has to. Why else would he be such an asshole and need to molest small girls like he did with his buddy, Epstein, and the whole world knows damn well he was doing it. You can't lie. And this man will cause World War Three to protect himself. He will throw billions of dollars at us to try to buy your friendship, and if that doesn't work, he'll try to kill you and cause Armageddon, just to make you stop talking about Epstein or the Mossad or the mafia or all these things you're not supposed to talk about, or the fact that if the law was applied properly to any one of these motherfuckers, they would all be executed for treason. Every single one, all of them, it would be ugly, but that is why they will not release the Epstein list, because, like Pandora's box, it will lead not you're just proving that they're all a bunch of fucking pedophiles, but that they're all Satanists, masons, double agents for Israel, beholden to Mossad and mafia. And then you will learn the truth, and then you will see that it's all Satan. And unless that's okay with you, you're probably not going to be okay with it. And most of us are not, because we're human, and we don't go for this anti human shit. Unless, of course, you're one of them, but if you're one of them, you're probably not listening. Actually, I know a lot of them are listening. Hey guys, you know who you are. You still have a chance. You know what? I'm going to end this real quick here, but I'm just going to say real quick here to remind you guys before I ask for you to send money to PayPal at law17 or No, stevenkelley714@yahoo.com , friend or family only, please. I

just want to say this is that one of the things that you learn when you read the Bible and

S

Steven D Kelley 47:30

you hear stories about those that pass over various prophets and what have you, there's a reoccurring theme, and that is, once they get to the other side and they learn the truth, they they think, wow, I should have done this. I should have done that. Let me go warn people down below. I feel this way. Now I've seen the truth. It doesn't matter.

S

Steven D Kelley 47:50

It's how you feel now, it's what you believe every day, it's what you do every day.

S

Steven D Kelley 47:57

Yes, you have the ability to change your mind, you have ability to adopt new notions of what the truth is, but when you get down to it,

S

Steven D Kelley 48:12

you need to do that now.

S

Steven D Kelley 48:14

You need to do that before the knock is on the door, and like a thief in the night, you go home like Hulk Hogan or Ozzy Osbourne did just the other day, you never know could be your turn. Could be my turn? You gotta be ready every night. You gotta be ready every day, all the time, and not just by asking for forgiveness, but by doing the actions you need to do to show that you tried, you did your best while you were here, not just to be a good person, but to show others how important the mission is to serve the right path. And then there, of course, there's the work you put in to try to serve the unfortunate. But you know, it's like Jesus said, what you do for the least of my brethren? You do for me? What greater thing could we do for Jesus than to rescue these poor children and to make us every effort we can to get them rescued and not to settle for oh, well, there's no proof. Forget about it. Bullshit. Make them prove it. Make them pull down their pants. It's time say anything you want, whatever it takes to make them pull down their pants and prove it. And if that means calling Gavin Newsom a pedophile, do it. Don't wait.
